Calculations

AMI - SNAP= \$ 56,200.00
AMI - SNAP/4= \$ 14,050.00

Financial aid awards range from 10% to 80% of tuition and uses the current Family Median Income available from HUD for Seattle and the Federal Poverty Line to calculate rates. This means that in the 2021-2022 school year, a household of 4 with an annual income of \$113,300.00 may qualify for financial aid from Fiddleheads. Actual awards are dependent on available funding.

Because we started asking for a short narrative to help explain circumstances that aren't reflected in their annual income I move them to the next level of award.
